Here we are at University with Leia - to make things a bit different from previous ones, she'll stay in the dorms.

As is tradition, this is her university outfit

She took a bee-line to the top floor to dance her heart out in the gym xD

Never noticed this before, their colours look so cute

Making friends

Getting bullied by the muprhy bed

Murphy Bed Clinophobia
Falling murphy beds will leave a lasting impression on unsuspecting Sims. Leia is being extra cautious around dangerous murphy beds.

Too afraid of the bed now to touch it again

Jeffrey... you don't even know her - how do you get this number? Is it because she's a celebrity I wonder

Flying to the student union building

As a nerd, ofc she started to play around in the lab first thing when she made it there

Next going to the bookstore to get some skill books she'll need

And at night, she went to Jeffrey's party. Threw test tube to the bonfire, made everyone smelly and ruined it for all xD

In the morning, she successfully closed the murphy bed xD

Noooo, this sucks :((she can't use the backpack because of her wings

Well at least she can use an umbrella. This is so funny to me for some reason xD

Finally got some nerd social status!

She looks so good behind that thing

The lecturer was a no show sadly

Studying a little bit more before she returns to the dorms

Playing with the science&medicine object. I really hate that science and medicine are the same degree in sims 3. They are vastly different professions and shouldn't have been merged together like this. There isn't enough stuff to get into that mad scientist vibe. I don't like biology dammit. Gimme physics

I don't know why I did this... Maybe to try it or to simulate a struggling life of a student xD

Heh

This bed is gonna kill her one day

Luckily that day is not today

Tensions are rising in the dorm

Jeffrey is having another party and frankly, Leia can use some fun. Keeping her fun bar full is not really going well

Oh it's a plantsim! I believe his name was Shea Hollis. I feel like he'd be a great spouse for Leia. The fairy and the plantsim!

I don't really remember what happened here. I think she asked for something specific to plantsims. Maybe a seed? She's been experimenting on them lately.

And how nice it is that they found each other very attractive

Acquaintance
Shea thinks Leia is being very alluring.
It's a long and winding road to becoming the top Rebel, so Leia Page Wolff's friends gave her a Street Art Bag and a Megaphone to kick things off. For some spare Simoleons, Leia Page Wolff can sell stolen exam answers too!

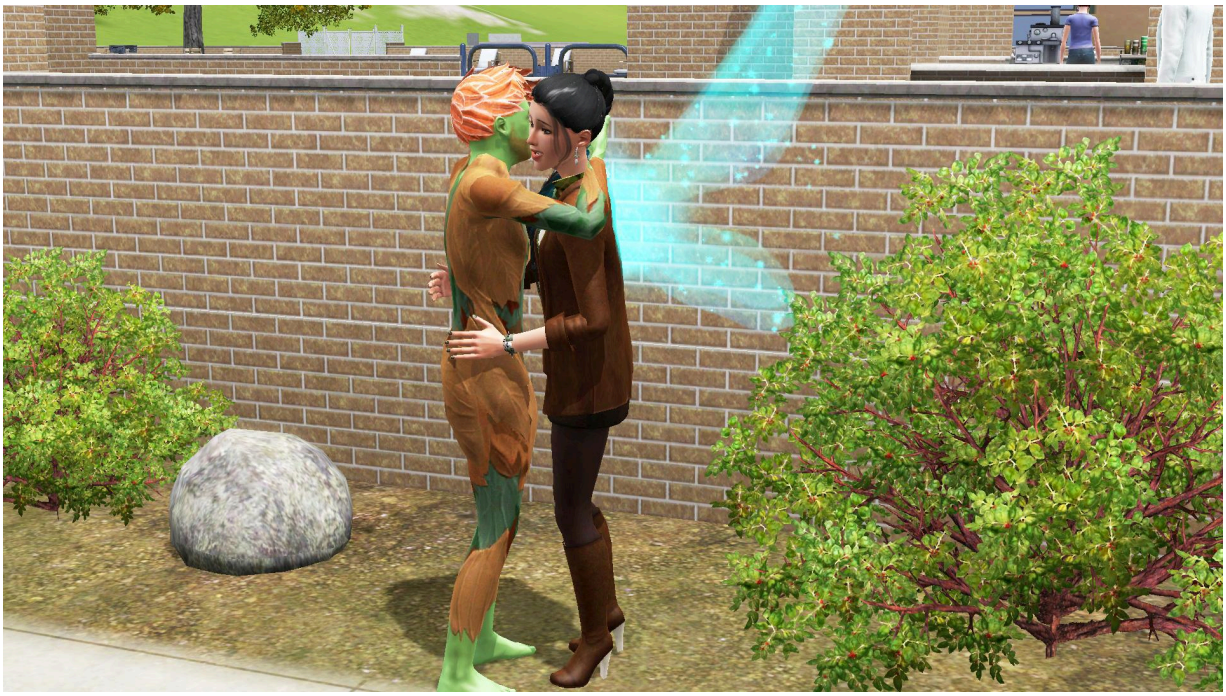
Aww she already wants to go on a date with him. She's been very unlucky with romance so far. Wonder if her luck will finally turn around

I sent her to the bowling alley to try to get her fun meter up. It's a constant struggle for her

I love the practical classes so much in sims 3

After class, she asked Shea on a date



Things seem to be going well!

Here she goes!

Oh no :((he didn't like it

Thinking that he's being cranky because he's hungry, Leia took Shea to have a bite

Jeffrey and his endless parties

I guess they're having a study date xD

Ah damn... another commitment issued sim. Why do I always find these guys. I never miss

And as per her wish, they went to see a movie after it

Squeezing in some nerd interactions so she can get more levels in there

No idea what's happening here. Maybe she was inviting him over?

But he called it a night before she could finish her question lol. At least it counted as a great date

And she wants to kiss him. Yes, we'll pursue this. I really like this pairing

So, I believe she has exams tomorrow... which I've forgotten. I thought when you picked 2 weeks for the uni run they had their exams at the end of the 2nd week but then I got a notification for it. Oops

Her fun need is in shambles. Her grade meter is also in shambles. Here is her last attempt at studying a little before the exam

The exam fucked her fun need even more. Trying to get it up but don't think it's gonna work

Oh no she failed :(

Yeahhh she's not having a good time

And she failed this one too

Yes she desperately needs a party

The cleaning situation in the dorm was getting out of hand with them constantly being out of empty counters and all so I hired a maid... who is busy chit chatting than working

Instead of the party though, I decided to invite Shea over. Jeffrey's parties has been pretty lack luster this time around

Thanks for inviting me over! I'm really looking forward to spending the night at your place. It'll be fun!

And yay, he accpepted to stay over! And Leia wants to woohoo with him xD Girl, you didn't even kiss yet!

Decided to go for the first kiss interaction instead of the heat of the moment one - maybe Shea doesn't like impulsive actions?

And he was happy with this one!

Now she can go for that woohoo!

Ah fuck... so apparently Shea is an irresistable sim, like Karen... so other sims just surround him whenever he's alone. fml

He managed to get away and make it to bed!

Leia is not wasting any time and asks her question.

And yeah, here she is learning he has commitment issues. Just like grandpa Hank xD

Cuute. Finally she got a boyfriend!

Aw, already so in love. I feel like she never had this kind of chemistry with the others. And yeah, Shea has moved in because he's a homeless sim and he just disappears when he's not called. That can get a bit buggy and I'm not dealing with that

Man here we go again

I sent him to the bookstore to buy some skill books. He also doesn't have textbooks and I couldn't find where to buy them but anyway, the minute I left him alone he went to tag stuff xD

Ah the irresistable trait. I hate you so much

I think this is a plantsim only interaction but don't know what it is

An odd wish for Leia but sure, you'll do that before we leave xD

I sent Shea to the library, still trying to find a textbook for him. They weren't in the bookstore and library didn't seem to have it either. So he's just studying from the skill books

Leia was also on her way. The flying pose for fairies is so cute

I think this is the first time I had two sims who were taking the same class. It's cute that Shea sat next to Leia

With her growing power, Leia can now finally make plants bloom! This is an insanely useful ability ngl. Tho it backfires sometimes

The two of them are back in the library to cram a little bit. She's not gonna fail her classes this time!

Before I could stop her, Leia ate this flower looking thing she harvested

Wonderpetal
Leia is in quite the studious mood! A little studying and paying attention during class will go a long way!

And apparently it's an herb with a great effect! I didn't know that. Wonderpetal. She's gonna have some more of those in her inventory from now on

And Shea thought it was enough studyin. Time to seduce Leia

She's so happy xD

Ugh this is from Sweetsimmer's more romantic interactions mod and I love it so much

I don't know if this comes from Shea's irresistible trait or his special plantsim kiss, but either way she's obsessed with him xD I love seeing her so in love

Girlfriend
Leia thinks Shea is being extremely irresistible.
This was a really nice time we spent together, thanks!

Botanical Boss
Botanical Bosses must harvest at least 75 Perfect fruits and vegetables. After so many Perfect harvestables, the plants of Botanical Bosses almost never die from neglect.
Master Farmer
Master Farmers have harvested at least 650 fruits and vegetables. The plants of Master Farmers remain watered and fertilized longer, meaning their gardens are

Oh so it's about planting different types of plants. Very cool. I haven't played with gardening much in s3 tbh

Shea needed water and Leia was stinky so they're having a little fun in the showers xD it's two for one

Herb Nausea
Too many herbs made Leia nauseous! The thought of herbs makes her sick, so they should be avoided for now.

Oh no... she was hungry so I thought she can just eat another wonderpetal but she got herb nausea :(

... alright. She came straight from the wedding venue to the class I guess

Sent these two to the coffee house after class. A little study date

So this guy is a fellow nerd and I want Leia to climb those nerd levels so she gotta befriend him

Doing various nerd activities

Then back home, doing some amorous activities. It's the best way to top that fun need

Shea regularly wishes to speak with plants and here he is, passing the time with one of them

Another week another class activity

It's not enough that she set the dorm on fire - she's having the time of her life with it xD

While I was panicking, she surprised me again by automatically putting the fire out lol

I love that even talking to a random dormie doesn't make Shea less horny for Leia.

I'm so glad things didn't work out for her with Gladsten and Dante. Shea is better than both of them

Leia is once again on a mission to increase her nerd cred

sigh every morning, the whole dorm comes into their room to talk to Shea

It worked! Woohoo is the cure all to university. They both had great exams. Hopefully it'll be enough to increase Leia's final score. I don't know how Shea did in his 1st semester

It's so great to come to uni with a fairy. She's harvesting everything I couldn't before thanks to her bloom ability

I thought they should celebrate the end of their terms and said why not take the whole dorm to the club?

And finally complete Leia's long wish to streak xD

She put her clothes back on and head to the dance floor afterwards

The moment of truth!

drumroll

Not bad! Leia managed to get an A and Shea got a B!

Last touches to their garden at the dorm

And they're off home! Leia is taking Shea with her so he can meet the family!
